

Delivery model: Online portal with Reka-Card top-ups

You organise Reka Money delivery online in RekaNet yourself.

The sequence:

You determine the annual quota and the discount.

You receive a securely protected account in RekaNet (rekanet.ch).

You enter staff members' address data online in RekaNet.

You carry out account top-ups for corresponding employees.

Employees receive the loaded Reka-Card and access to their own account.

You receive a monthly statement for the transacted emoluments.

Staff can use their Reka account credit at all times or obtain part of it in Reka-Checks,
or carry out online payments.

The Reka-Checks are sent by registered mail to their private address.
